PROFESSIONAL SUMMARY

Senior React Native Developer with 5+ years of experience building production mobile apps for iOS and Android. Strong in mobile architecture, performance optimization, API integration, releases, and owning features end to end. Recently expanded into backend development with hands-on work in Node.js, Express.js, MySQL, Prisma, REST APIs, and JWT auth. Built a full-stack learning platform covering uploads, payments, webhooks, Redis caching, Docker, and deployment basics.

SKILLS

Mobile Development

React Native, Expo, TypeScript, JavaScript, Redux Toolkit, Zustand, Context API, NativeWind, OTA Updates, Push Notifications, Deep Linking, Offline Support

Authentication & Security

Password Hashing, JWT Access Tokens, Refresh Tokens, Protected Routes, Role-Based Access Control, Input Validation with Zod, Safe Error Handling, Basic Rate Limiting

Tools

Git, Bitbucket, App Center, Xcode, Android Studio, Visual Studio Code, Figma, Sentry, TestFlight, Google Play Console

Backend Development

Node.js, Express.js, REST API Development, Routes, Controllers, Services, Middleware, Request/Response Lifecycle, API Versioning, Clean API Response Patterns

Advanced Backend Concepts

Redis Caching, Background Jobs, Queue-Based Processing, WebSockets, Chat System Design, File Uploads, Image Handling, Video Upload Architecture, Payment Gateway Integration, Webhooks

PROFESSIONAL EXPERIENCE

Sr Software Engineer

Khedmah Delivery (Spring Trading and Technologies LLC)

01/2025 – Present
Muscat, Oman

- Built and maintained production React Native applications across customer, driver, and vendor platforms.
- Integrated REST APIs for authentication, orders, payments, notifications, loyalty rewards, and real-time delivery tracking.
- Worked closely with backend, product, and QA teams to define API requirements, validate flows, and deliver stable production releases.
- Improved app stability through proper error handling, performance optimization, OTA updates, and post-release monitoring.

Sr Software Engineer

The Ninehertz

12/2023 – 01/2025
Jaipur, Rajasthan

- Contributed to several **international service-based apps** in fitness, lifestyle, and pet care domains, focusing on responsive UI, performance, and offline support.
- Learned effective client communication, sprint planning, and delivering high-quality apps within tight timelines and changing requirements.

Mobile App Developer

Code Brew Labs

01/2021 – 11/2023
Chandigarh, India

- Started as an intern and progressed to a senior developer role, taking responsibility for maintaining and supporting multiple mobile services. Worked on a multi-service mobile platform powering e-commerce, food, and delivery applications.
- Improved skills in modular architecture, build optimization, and release automation, ensuring stable and efficient multi-app deployments.
- Recognized with the **Best Performer Award** for outstanding contribution and leadership during the last 6 months of tenure.

PROJECTS

Full-Stack Learning / Video Platform

- Built a full-stack learning platform backend using Node.js, Express.js, Prisma, and MySQL.
- Designed APIs for users, authentication, courses, videos, uploads, payments, chat, search, pagination, and admin operations.
- Implemented secure authentication using password hashing, JWT access tokens, refresh tokens, protected routes, and role-based permissions.
- Added Zod validation, centralized error handling, clean API responses, logging, and environment-based configuration.
- Used Docker Compose for local MySQL setup and Prisma migrations for database schema management.
- Designed production-focused flows for file uploads, video streaming architecture, CDN usage, Redis caching, background jobs, payment webhooks, deployment, and monitoring.

Khedmah Delivery

- Worked on customer, driver, and vendor apps, building mobile features and integrating APIs for orders, payments, notifications, loyalty rewards, and live tracking.
- Implemented OTA updates using AppCenter CodePush, enabling faster hotfix delivery without app store resubmissions.
- Improved user experience with secure payment flows, order updates, customer support notifications, and partner service management.

SnapHatch - Fly Fishing Guide

- Worked as a React Native Developer, focusing on offline-first app behavior, SQLite database setup, local queries, and API data synchronization.
- Built features like insect identification, digital fly box, catch log, maps, hatch reports, and catch location tracking.
- Contributed to API-related development and ensured local app data stayed in sync when users came back online.

DogPack: Dog Parks & Pet Care

- DogPack is a mobile app that helps users find dog-friendly parks, cafés, hotels, and book trusted pet care services while connecting with other dog owners.
- Integrated **interactive maps** to show nearby parks, walking trails, and pet-friendly places.
- Built parts of the **feed, chat, and lost dog alert** features to make the app more community-driven.
- Focused on improving performance and usability, helping the app reach **over 1 million downloads**.

Groovio

- Groovio helps users book classes, track fitness progress, and connect with their community.
- Handled **responsive UI design, API integration**, and core app features.

Royo Orders 2.0

- Royo Orders 2.0 is a React Native platform that powers over **300 sub-apps** for services like **E-commerce, Food & Grocery delivery, Taxi Booking, Laundry, and Home Services**, including separate **Driver** and **Vendor** apps.
- Worked as a React Native Developer, helping build and maintain multiple apps from a **single shared codebase**.
- Integrated all sub-apps using **Android Flavors** and **iOS Targets** to manage unique branding and configurations.
- Contributed to shared modules like **authentication, orders, carts, and notifications** for consistent user experience across all apps.
- Some published sub-apps include **Towfinder** , **Towfinder Driver**,  and **Codiner**.

EDUCATION

Bachelor of Technology, Computer Science Engineering

Suresh Gyan Vihar University - 7.36 SGPA

07/2018 – 03/2021

Jaipur, Rajasthan

CERTIFICATES

- Core Java 
- The Fundamentals of Digital Marketing 
- Google Cloud Platform Fundamentals
